QUARTER MEDIATION

# STOP MOTION

- Stop motion is an animation technique that physically manipulates an object so that it appears to move on its own.
- The object is moved in small increments between individually photographed frames, creating the illusion of movement when the series of frames is played as a fast sequence.

2

## STOP MOTION STEP 1: SCENARIO

- **WHAT?**  
*Describe in a few sentences what is the story about (ex: school behavior, environment protection, school trip, party at the castle)*
- **WHERE?**  
*Explain shortly where the action takes place (ex: in a forest, in the school, in space, in a lake, at the seaside)*
- **WHEN?**  
*Locate the action in time (ex: present, future, XIXth century)*

3

## STOP MOTION STEP 1: SCENARIO

- **WHO?**  
*Make a list with the main characters of the story and mention what is their role in the action*

Character	Role in the story

4

## STOP MOTION STEP 2: SCENERY AND CHARACTERS

*Create the most appropriate scenery and the characters by using the materials around you:*

- Make a drawing representing the scenery
- Make drawings representing the characters

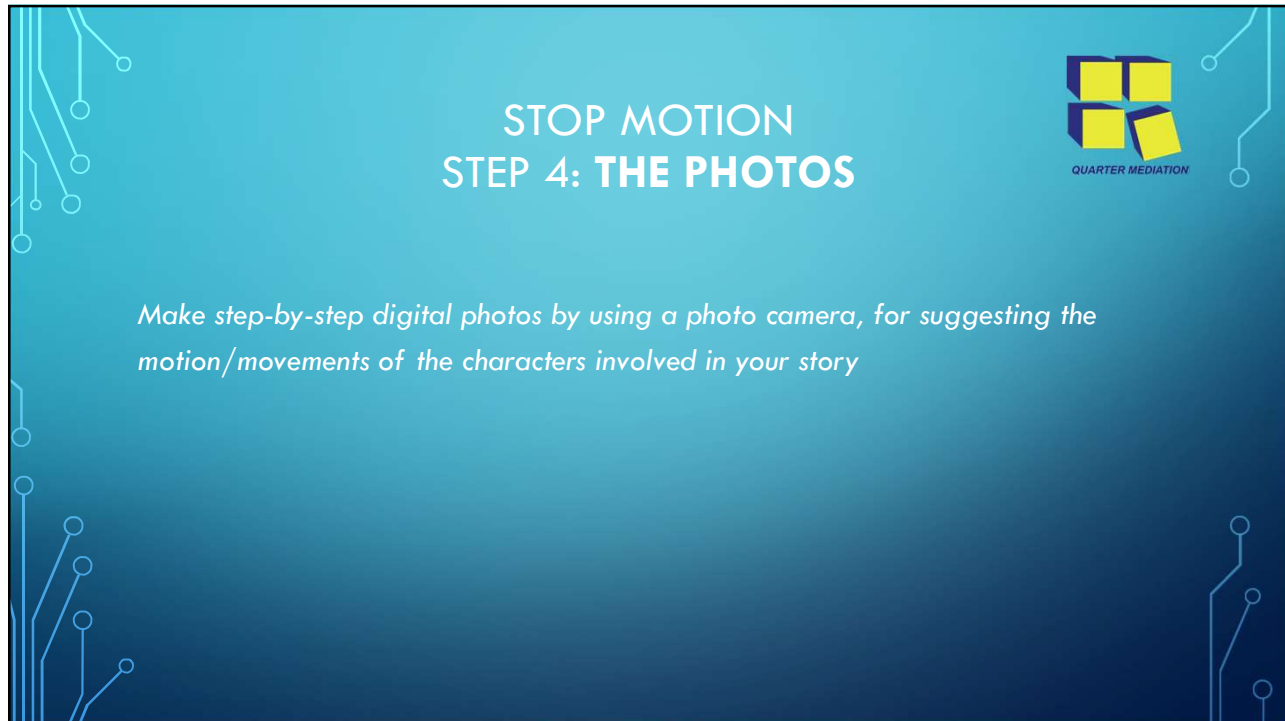

5

## STOP MOTION STEP 3: THE STORY

*Create the story by using motion of the characters in the new created scenery*

6

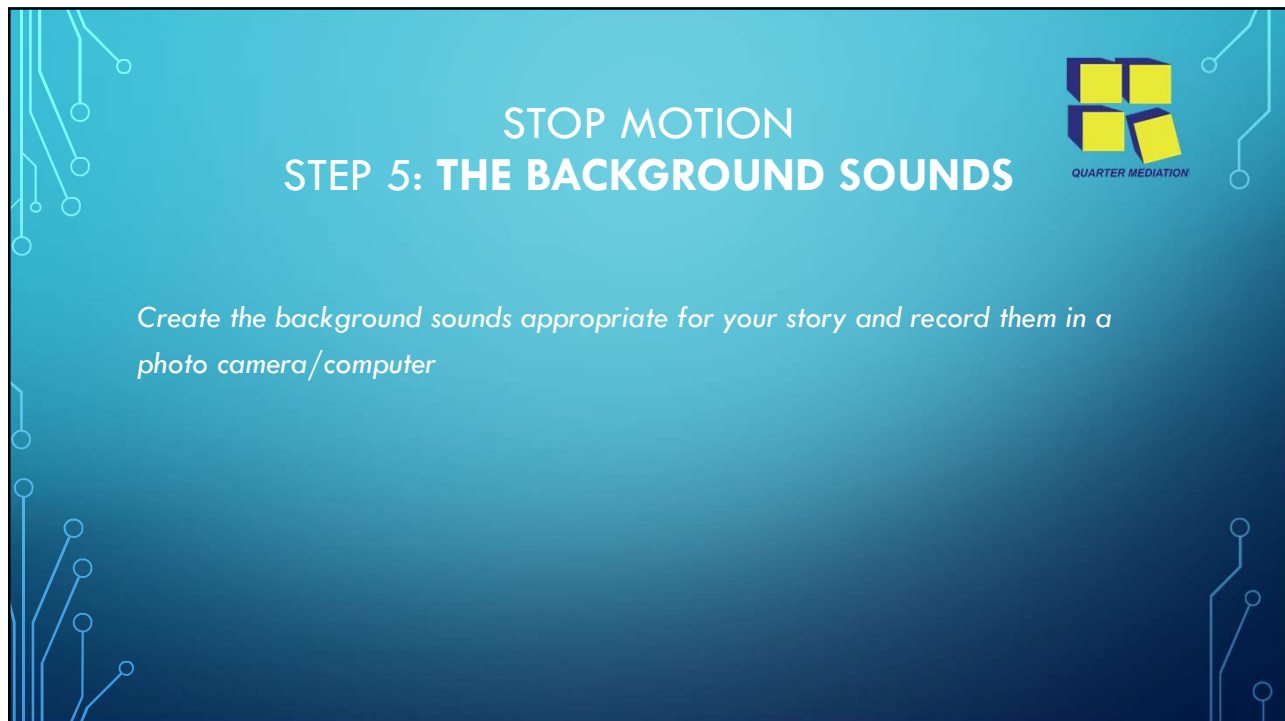

STOP MOTION  
**STEP 4: THE PHOTOS**

*Make step-by-step digital photos by using a photo camera, for suggesting the motion/movements of the characters involved in your story*

QUARTER MEDIATION

The slide features a blue gradient background with white circuit-like patterns on the left and right sides. The text is centered, and the logo is in the top right corner.

7

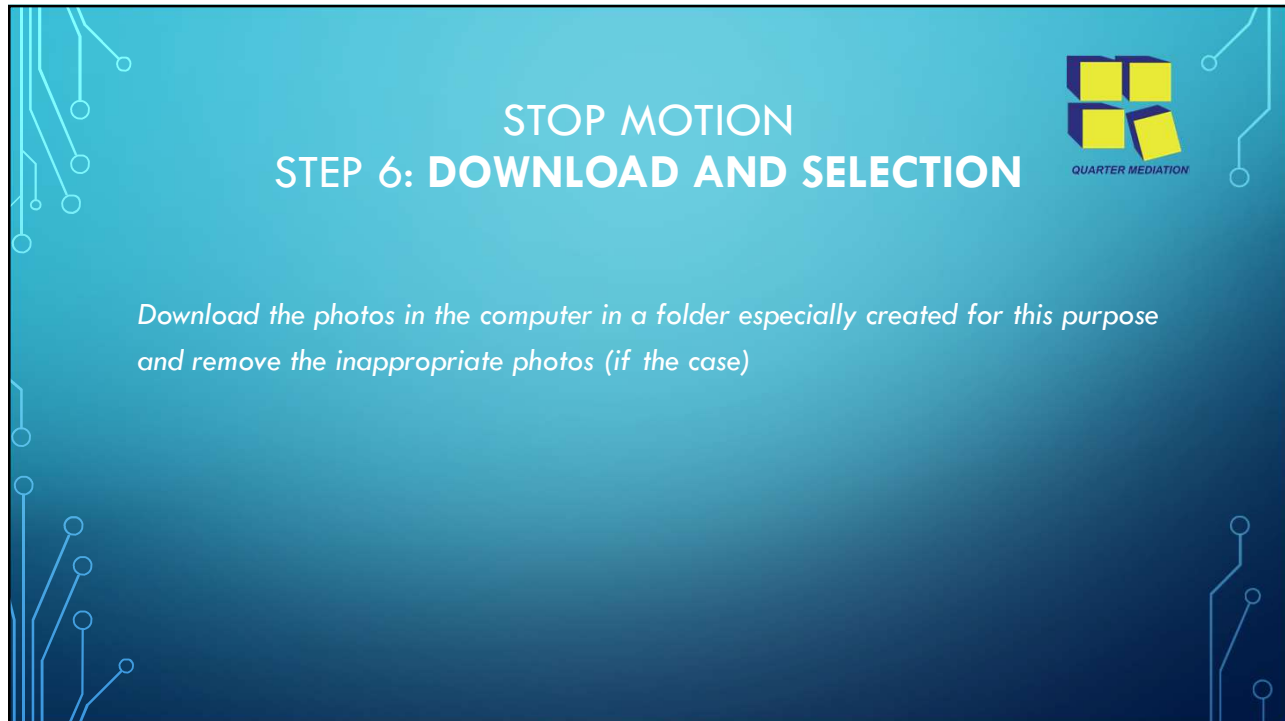

STOP MOTION  
**STEP 5: THE BACKGROUND SOUNDS**

*Create the background sounds appropriate for your story and record them in a photo camera/computer*

QUARTER MEDIATION

The slide features a blue gradient background with white circuit-like patterns on the left and right sides. The text is centered, and the logo is in the top right corner.

8

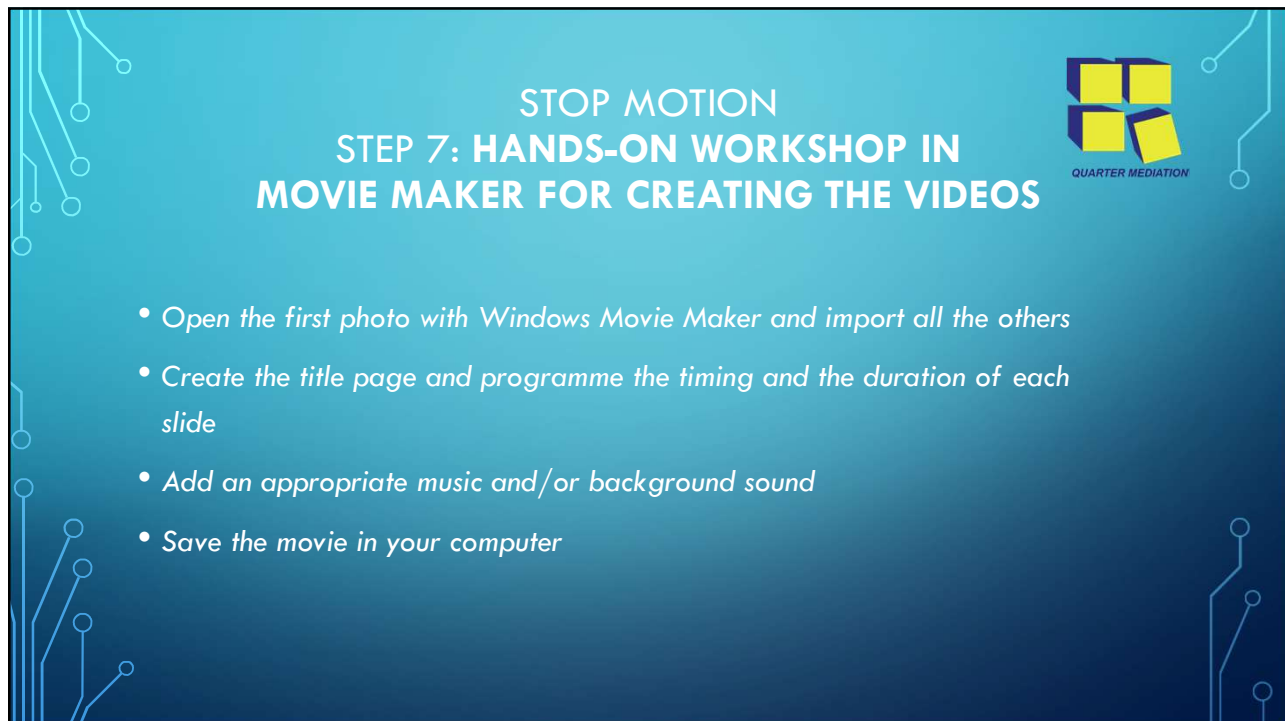

## STOP MOTION

### STEP 6: DOWNLOAD AND SELECTION

*Download the photos in the computer in a folder especially created for this purpose and remove the inappropriate photos (if the case)*

9

## STOP MOTION

### STEP 7: HANDS-ON WORKSHOP IN MOVIE MAKER FOR CREATING THE VIDEOS

- *Open the first photo with Windows Movie Maker and import all the others*
- *Create the title page and programme the timing and the duration of each slide*
- *Add an appropriate music and/or background sound*
- *Save the movie in your computer*
